## ***Part One***

### **One Million Children Are Bought and Sold for SEX. in America – Each Year!**

*First, ask yourself, why doesn't our "Media" discuss or want to warn the public of the thousands upon thousands of children who disappear every year? Why? There is an army of people on social websites and even bookselling platforms who criticize factual information about pedophilia, child sex trafficking, adrenochrome harvesting, and other susceptible subjects.*

*Why would these persons want to keep these essential subjects secret? Why do they want to hide it? Why do they try to brainwash others into thinking that pedophilia is normal or, worst yet, does not exist? You will find the reasons inside this book.*

*More than ONE million children in America alone are purchased and sold into the sex trade industry every year. The significant number of children lost to the sex trade is one of the big secrets.*

*Not only are children being abused, but it is also a 100 BILLION-DOLLAR per year enterprise! Experts in child trafficking have spent years investigating this very lucrative business where children are sexually abused with low risk to buyers or human sex traffickers, despite more stringent laws and heightened international awareness of the scourge.*

*The theft and the purchase of childing can happen to children from infants to young teenage girls. Almost all of these children will be forced into the sex trafficking trade. Some children are deceived and often coerced. It is very evil and criminal. Thousands upon thousands of children will endure the illegal criminal actions which are purposely and savagely done to them. Many will die needlessly, and those who survive are forced to live with emotional and mental illnesses.*

*Nearly every child inside the sex trade will be forced to have sex more than five times per day. And some children will have to endure sexual activities with adults sometimes 20 to*

50 times a day! The buyers of the children-for-sex industry are rarely caught or punished. Most child-for-sex predators simply run back into society – they simply return to their families and their occupations until the next time they have a desire for sex with a child.

### **What type of person desires CHILDREN for sex?**

The answer to that "sick" question is Average American men. They could be an associate, dentist, local police chief, a judge, or even your minister. It might even be your mate.

The CHILD survivors are from all types of neighborhoods, social class, and income levels. A 14-year-old child survivor from the west coast began being trafficked when she was only eight years old. About 130 to 180 men purchased her for SEX every month. Some of these men are often influential people within the community. These men live in our cities, towns, and even rural areas.

Expert investigators say that American adults purchase children for sex at least 2.5 million times a year in America. Experts say that child sex trafficking is a 100 Billion dollar per year worldwide – and it could be much more than that.

Most of the pedophile predators are men who prefer sex with children. Why? 20% of those who were sexual victims as children turn into "Pedophiles" later in life. Sad, huh?

**Often, young children were tortured before being sexually abused and tortured after – and sometimes the child is simply murdered.**

**Recently, several hundred tortured children are rescued from underground tunnels in California!**

Many children, in the past and now are murdered for their blood. They are being used to create a drug made from their over-activated, panicked adrenal glands. The mixture of blood and the hormone from the adrenal glands is called Adrenochrome.

### **Child Sex Rings use young children:**

- Torturing and Killing children for a drug called Adrenochrome. Many people (in-the-know) are accusing wealthy, influential people who are drinking the blood of children. The drinking the blood of young children nothing new; it's been happening for hundreds or maybe thousands of years. People who drink the blood believe it gives them a "High" and adds many years to their life.
- Many children have been sold to child sex slave brokers – who purchase children for sexual reasons, and even babies are sold to pedophiles.
- Some children are sold to work as slaves.
- Hundreds, if not thousands of children, are sold to Satanists who tortured and killed children for their satanic rituals.
- Some children are stolen for organ harvesting. They sell their internal organs on the black market.

Facts: According to an underground child trafficking agent, these facts are real.

- 30 million sex slaves in the world.
- 10 million of those are CHILDREN!
- Many are kidnapped for organ harvesting.
- Americans are the #1 consumers of Child Sex.
- America rates #3 in destination countries of foreign child sex slaves.
- Many children are sold on social media, online "dark" web and even in average neighborhoods.

## Part Two

### Facts About Child Trafficking

National Human Trafficking Hotline is a contact number you can call to report any type of child sex abuse or human trafficking survivors or report a tip: call 1-888-373-7888, text 233733, or chat online.

1. Trafficking involves transporting people or children for forced labor, marriage, prostitution, and organ harvesting. It has many names - "human trafficking," "trafficking of persons," and "modern slavery."
2. About 20 million to 40 million people live inside the world of modern "forced" slavery. It is difficult to detect and, unfortunately, gone undetected. Soon, enforcers will prove the UN is involved in child sex trafficking.
3. Child sex traffickers are very smart - only about .04% of humans are caught or detected - meaning that the vast majority of human trafficking cases go undetected and unpunished. Things may change soon.
4. Global profits of about \$150 billion a year for traffickers, \$100 billion comes directly from commercial sexual exploitation.
5. Worldwide a nearly 71% of those inside forced slavery are women and girls, while men and boys account for 29%.
6. About 60,000 people are being trafficked inside the boundaries of the USA every year. Thousands of people come to the USA from Mexico and the Philippines, and other low-income countries.

7. (51.6%) of the criminal human trafficking cases active in the US were sex trafficking cases with children.

8. The most damaging of all – many of the child sex trafficking survivors in the US are young children placed inside the foster care system from CPS. Many of the foster "parents" are pedophiles.

9. Human child sex traffickers utilize online social media platforms for hunting down children for their sick desires.

10. The average child being trafficked inside the sex trade is 11 yrs old to about 15 years old. Thousands of these victims are runaway girls who are sexually abused. Also, thousands of children are stolen by CPS, neighborhoods, and infants are often stolen from hospitals.

11. California receives more calls to the National Human Trafficking Hotline. Texas and Florida are the next two states. Contact the Human Trafficking Hotline: call 1-888-373-7888, text 233733, or chat online.)

12. Don't forget - Child Sex Trafficking is a **30 Billion Dollar PER YEAR Business in America** alone.

However, it's probably a lot more!

## Part Three

### How to RECOGNIZE child trafficking among children

1. Does the CHILDREN leave home often?
2. Do the children return with tattoos?
3. What type of Tattoos do the children have now?
4. Is the child or children wearing jewelry they did not buy?
5. Does the child have personality changes?
6. Is the child NOT interested in the normal activities they used to enjoy?
7. Is the child 12 years old associating with a 25-year-old male?

### US Foster Care System is part of the Human Trafficking Crimes.

About 50% of human trafficking victims are children. This statement is hard to believe, but it is true - about **70% of these are children inside the foster care system**. Some say that in individual states, it may even be higher - 80%. Thousands of children suffer from sexual abuse within the child welfare services, especially when placed into the foster care or residential system.

Disturbing stats estimate **300,000 children** involved in underage domestic sex trafficking in the United States. This SYSTEM has failed about 200,000 to 260,000 children.

Children inside the disaster foster care system are especially vulnerable. CPS and foster care systems are not safe for children. Do not allow CPS to steal your children – do everything possible not to let this happen. Most children within the foster care system experience sexual and physical violence trauma. Children who do not have family support or relatives are easy predators, pimps, and pedophiles. Many pimps gain a young girl's attention by giving gifts and lots of attention and affection.

Many pimps are simply CON-ARTISTS. They often will act like loving boyfriends and a man who will protect and love them. They gain their trust.

### **Prostituted Children in America only.**

Pimps will often demand that their sex slave bring back the money from at least 10 to 20 sex buyers per night. A young teenage sex slave can earn a pimp about \$1,000 to \$2,000 per night each.

One child sex-trafficking victim is raped by 5,000 to 6,000 SEX buyers during their lives as sex workers.

Most of these trafficked children usually only live about two years. They are either too sick or injured from the brutality to be used to the pimps. Often, the damaged children will be tossed back onto the streets. Most children usually die early or commit suicide. Many of the children have not created their natural immune system. They will get diseases like AIDS, Syphilis, and Hepatitis B. The average age for a child to enter forced prostitution is 12-14 years old, and most die within five to seven years of their first sexual act. Most of the children seldom reach adulthood.

Very intelligent sex predators are misusing the Internet daily to FIND and capture their prey. We must monitor and prevent illegal user content.

America has failed our children by not protecting them from criminal "Insider" government criminal organizations. CPS has been allowed to kidnap thousands of children from innocent families. It has all been one BIG secret about the foster care system being a sex trafficking pipeline - the facts are not only disgusting, but it must be fixed.

One thing for sure. Our country NEEDS our law enforcement to be consistent in finding, arresting, and prosecuting human trafficking predators, no matter who they are! Also, we need to find vulnerable children before the predators and pimps find them.

### **Close to 90,000 child sex abuse testimonies filed concerning the Boy Scouts of America. They are declaring bankruptcy.**

Close to 90,000 sexual abuse claims are filed against the Boy Scouts of America. Thousands of people are shocked and disgusted by the actions of the Boy Scouts masters across America. These pedophiles have destroyed a great American institution for young

boys. Thousands of lives have been impacted and destroyed. Shame on the pedophiles who hid in the Boys Scouts for many years abusing our children. SHAME ON YOU.

## **Part Four**

### **Human Trafficking is Big Business**

**The United States traffics more humans than any other country. Also, the highest in child sex trafficking.**

The United States is the number one BUYER of sex worldwide. American Adults pay Billions of Dollars to have Sex with Children.

An INCREDIBLE demand creates the SEX industry. So, what needs to be corrected? What should society do to change this? **The worst stats is this; 60% of Child Sex Slaves Come from the Foster Care industry.**

Our society has permitted SEX BUYERS to hide behind a mask of anonymity and call them a 'John'. We seldom call these buyers by name because we let them stay behind their masks. We must decrease the demand for child S.E.X. And that means the sex buyer must be PUNISHED for the damage and trauma that he or she is causing our American Children.

**Eighty-five percent of CHILDREN are trafficked from the United States.**

Child Sex victims or child sex slaves are THREE YEARS OLD and up to about 15 years old. On average, predators are raping children, starting at age three years old. Did you know this? Is this shocking to you? **Most people do not see this stuff. Child SEX under five years is old is BIG BUSINESS.**

## Part Five

### America Attempts to Stop Child Sex Trafficking in the US.

Child Sex trafficking happens all around us every day, and many people go on with their daily lives and rarely know it is happening right under their noses. Child sex trafficking occurs from coast to coast. The United States is not immune to the horrors of trafficking and commercial sexual exploitation of boys, girls, and young men and women. The most horrific stories of abuse of pimps and traffickers in our average to upper-class neighborhoods. A favorite place for child trafficking

#### Jane's story

Jane was sold to child sex buyers almost every night by her father, who happened to be a **pastor**. Jane was a sexual victim from 11 to about 14 years old. It wasn't only her. There were also 30 to 40 other girls. It was called a "Warehouse." You might assume this child SEX warehouse was in a 3rd world country; however, it was in **Portland, Oregon**. These young children were sex toys for adult men from all types of life. Some of these men were other pastures, doctors, bankers, teachers, cops, and blue-collar workers.

After being trafficked into prostitution, Jane was then trafficked into pornography until she finally escaped the sex industry life at 17.

#### Fighting trafficking through texting

Disgustingly, Jane's story is one of the thousands who were sold for sex in America. Young girls are using social media, and predators find their prey right online. It's easy, peasy.

### **Sharon's story**

Sharon was a runaway. Sharon ran away as a young teenager who ran away from home. Sharon was alone and afraid – living on the streets. Sleeping in alleys and under bushes. Naturally, a predator found her and promised her a better life. She began selling sex on the streets in various places. One morning, Sharon texted her father, but Sharon has not seen them in many years.

Since Sharon was a teenager, her parents remained in contact but were not aware of the tremendous hardship their daughter had lived. They had no idea their daughter had become a prostitute for many years. After talking to her parents, Sharon decided to move back home. She is rebuilding her life one day at a time.

Another runaway is **Ginger**, near Fort Worth, Texas. A pimp taught how to place ads on the Internet. "Escort" services. She met with the men for sex. Many online advertisements for "escort" services were posted. She met with strange men for "sex-dates" while the pimps stayed close to collect the payment that changed hands. Finally, in January 2013, Ginger escaped.

### **Ginger**

"Ginger" was a victim of child sex trafficking, or "modern-day slavery," as some sometimes call it. According to the FBI, child sex abuse has been a genuine and dangerous issue in the US. Thanks to the current administration; Child sex trafficking appears to be slowing down. Hundreds of pedophiles and child sex traffickers have been stopped; however, it is still a massive issue in America and worldwide.

## Part Six

### Human Trafficking Activities in these States are Among the Highest in the Nation

#### Human trafficking in America - 11 Worst States

Most of the human trafficking victims are usually from low-income families and are children. **Almost 50% of the victims** in this crime industry are young teenagers.

**Twenty-five percent of the children** are runaways. Most of the runaways are eventually involved in sex trafficking - mostly for survival reasons. Most of the trafficking victims worldwide are and will be utilized for sexual reasons.

**Eleven Countries with the Highest Rates of Human Trafficking Worldwide** usually have the most problems with human trafficking. They are usually poor countries where law and order were seldom utilized.

Human trafficking victims are used in various industries, such as sex, forced labor, and agriculture, to name a few. **In the United States, the primary sector which utilizes these victims is the sex industry**, as the victims are often sent to brothels. Many average houses in American neighborhoods are brothels, and the neighbors seldom recognize that their neighbors are pimps and sex workers.

Some states do not have many human trafficking issues, while other countries are packed with criminals who earn billions from sex trafficking crimes. Data helps to understand which states are responsible for much of the human trafficking.

## **Michigan**

### **152 victims per 100,000 people**

The sex trade is big in Michigan. The **FBI. discovered 220 cases** about sex trafficking in the state of Michigan.

## **New York**

### **27 victims per 100,000 people:**

Because of the massive population, New York, one of the worst states for human trafficking. Human Trafficking Hotline received over 4,000 phone calls - over 1,000 cases. The state is arresting human traffickers and promising severe sentences for those convicted. Time will tell.

## **Virginia**

### **145 victims per 100,000 people**

Virginia is one more major human trafficking hell hole. **Human Trafficking Hotline** received nearly 3,600 calls since 2007, while the number of victims in the same timeframe stands at 757. The majority were sex-related crimes.

Naturally, girls are the dominant sex when it comes to human trafficking victims, with 89 of the 116 victims researched being women.

## **Maryland**

### **118 victims per 100,000 people:**

Maryland is among the worst states for human trafficking in America, which partners with various organizations, not just combat human trafficking but also helps rehabilitate the victims.

## **New Jersey**

### **168 Victims per 100,000 people**

Human and Child **Sex trafficking is the main form of human trafficking. Authorities** recovered 82 trafficking victims.

## **Texas**

### **432 victims per 100,000 people**

Texas is the next worst state for human trafficking. Mostly due to the southern border. In a **2011 study** reporting that over 700 girls who were minors trafficked in just 30 days. Lack of human trafficking laws have been very relaxed; however, things are changing quickly.

## **Georgia**

### **190 victims per 100,000 people**

Georgia is among the worst states for human trafficking in America for child sex trafficking. Georgia has taken the issue of human trafficking very seriously. It is difficult to harness the trafficking issue.

## **Nevada**

### **122 victims per 100,000 people**

Nevada is among the 11 worst states for human trafficking in America. Nevada allows prostitution in ELEVEN counties. Pimps often traffic underage children by creating false identities and confirming their presence in the sex trade.

## **Florida**

### **122 victims per 100,000 people**

**Sex trafficking is the most common method of trafficking in Florida.** Underage girls being coerced and intimidated into prostitution.

While they were initially considered criminals, the **law in 2013** took a different view by considering them victims of sexual exploitation. This law has had a positive effect as not only are victims rehabilitated rather than being thrown into jail.

## **Ohio**

### **289 victims per 100,000 people**

Ohio has many issues with human trafficking, with **9 out of 10 children** who run away become involved in the child sex trafficking industry. The average age is 13 years old. A task force is trying to bring awareness to more and more people.

## **California**

**978 victims per 100,000 people. Guess which state is the worst?**

America is the worst country for buyers of Child Sex. There are eleven **states that are the worst in human trafficking**. Nearly **500,000 or more** undocumented immigrants from Mexico have been victims of labor trafficking as well.

## **Part Seven**

### **Many Horrific Acts You Should Know About America's Disgusting Child Sex Trade**

#### **1. At least One Million children or MORE in the USA disappear each year, and most were NEVER seen again.**

About 200,000 or MORE children are at risk of sex abuse. Thousands of thousands are trafficked in the USA from other countries as well.

It is impossible to know precisely how many children who've been abused. Most of the children remain quiet, and thousands of victims remain silent while they are sexually victimized. Most are ashamed and live in total fear. Many children live in survival mode and lack the experience and wisdom to escape their slavery.

#### **2. The legal definition of trafficking.**

The term "trafficked" means movement, transportation of victims across state or national lines. *Commercial sex acts and crimes by force, fraud, or coercion is a sex trafficking victim.* Child sex trafficking is when a person younger than 18 is trafficked for various illegal and sexual reasons.

**3. The FBI. Defines sex trafficking as minors the fastest-growing criminal activity and the third-largest crimes besides drugs and weapons.**

Why? It is a **One Hundred Billion Dollar BUSINESS**. Many young girls are sold for \$160 per hour or more. Pimps can pocket \$150,000 to \$200,000 for selling one victim for a year. The PIMP keeps all money. He gives barely enough to keep the child alive. A sex slave is forced to bring back \$500 every night. **A standard sex slave quota will make the pimp about \$14,000 per month or \$168,000 per year.** Remember, this is only ONE sex slave. What if the pimp has SIX girls or more?

**4. It's not just girls who are trafficked. Young boys are too.**

According to the anti-trafficking organization ECPAT-USA - boys are the majority of the SEX trade. Girls usually start "the sex life" at about **12 to 14** years old; boys start younger, at **11 to 13 years old.**

Pedophiles buy sex from boys, and most are runaways or "throwaways". Often LGBT youths are tossed out of their homes by their parents due to their sexuality. This action causes them to be vulnerable and forces them into survival mode. They are often scared and hungry. They are at high risk of being grabbed by the sex trade.

A pimp will eventually find them or a sexually another sex slave will introduce the LGBT child to the pimp. When a child or person is in survival mode, hungry and scared, they will do almost anything to remove the pain.

It is true that much of the sex trafficking industry is secret, and the exact number of boys in the sex trade is not known. We can only estimate the number of missing children being reported. The ECPAT suggested their MALE peers recruit them. From all reports, they will also experience violence associated with being a sex slave. The numbers of young boys as sex workers is more than people think – it is enormous. **Male pedophiles buy young boys for sex, who are usually sodomized.**

**5. Finding and sexually abusing MISSING children is EASY. Nearly all states do not collect missing persons if nobody reveals the child is missing. Most states DO NOT require Parents, Guardians or Child welfare Services to report their disappearance.**

When children disappear — because of being a runaway from home, or maybe they have been kidnapped or any other reason — they sometimes fall under the radar of law enforcement. Nobody will report the child as missing. Therefore, the child is extremely vulnerable to the disgusting world of the child sex trade.

Missing children are VULNERABLE. They are usually alone, hungry, and scared. Pimps will target missing children. Easy prey. Traffickers or PIMPS know to troll shelters, bus stops, malls, and other similar locations where victims will hang out to be as safe as possible. Pimps and predators know how to spot a vulnerable child who is alone.

**6. Unfortunately, the FOSTER CARE system has been the perfect place to traffic children.**

An older man may offer a comforting position of influence, promising financial support, and an escape from an unhappy family life. Of course, it's almost always a cheap obscene con-job. Sometimes children cannot see themselves as victims.

Pedophiles are very clever at brainwashing, manipulation, and intimidation. Many predators will offer a FAKE sense of safety and security.

A young woman admits that she was placed in foster care 14 different times. Each time, she was raped by each foster care person. It was, therefore, easy to go from foster care to a pimp. She said, at least the pimp told me that he loved me—the foster care system as about "money" – selling children to Pedophiles.

**7. PIMPS and those who run the sex trafficking organization are expert manipulators, sometimes spending weeks and months grooming girls online or in person. Pimps seek vulnerable young girls they can "groom" into being a sex worker.**

**By the way, pimps can be of any race. White, black, Hispanic, or Asian.**

A pimp will only reveal their true intentions after the girls (child 12 to 14 yrs.) agree to leave their homes. Once the pimp has control of them, then the real-life situation begins. Young women often leave home for hopes of being comforted by an older man who will love her and keep her safe.

In a real-life story – he will teach her how to advertise herself online. The child and her pimp (boyfriend) will travel together – sometimes across the country. They meet men who will pay to have sex with her. The pimp always keeps 100% of the money.

**Love — or the promise of it — can be an effective motivator.**

An older man will often fool the young girl (usually a young teenager) that he is wildly in love with her. He promises her love, kindness, and gifts. He will often invite her to meet the rest of his family. They travel to another state. This removes the young girl from her family, friends, and familiar surroundings.

She becomes dependent on her "New" boyfriend (pimp) to take care of her. She trusts him. In her new surroundings, she meets other underage sex slaves or prostitutes. Then her new life begins.

#### **8. SEX. Traffickers will often place their sex slaves in dangerous situations.**

**Sometimes the pimp will get the young girl addicted to a specific drug.** Usually, heroin or a type of opioid. Drugs help the young girl perform her sex acts easier, as it decreases her fears. She will now become a steady sex worker in order to satisfy her addiction to the drug.

If a person is an addict to a particular drug, she can easily be controlled. It is excruciating to withdraw from heroin. You can't move. You're cramped. You shake. You don't want to shower. You don't want to be touched.

**9. Real-life scenarios.** The pimp promised a 14-year-old girl a house, car, and a family. The pimp lured her to a hotel in Portland, where he beat her and later got her addicted to heroin. A 13-year-old girl coerced by her PIMP later wound up addicted to crystal meth and soon had sex with 10 to 20 men per day. Another real-life pimp met a young girl at a party. He soon introduced her to the sex trade by giving her alcohol and marijuana. Within a few days, she was having sex multiple times a day with multiple men for money. All of these young girls became good MONEY MAKERS for their pimps. E

**Traffickers USE control as their method. Intimidation of Physical Violence and many threats are all part of the abuse.**

Violence inflicted by adults will have a substantial effect on a child.

Real Life scenario. A man (pimp) kidnapped to young minors in Detroit. By merely threatening the child, they can easily be forced into prostitution. He used a gun to threaten and intimidate them. He told the girls he would kill them and their families if they didn't obey him. He was a modern-day slave owner. His name is Terrence Yarbrough. He beat four young women (two minors and two adults) whom he'd forced into prostitution. The scumbag, Yarbrough, is currently serving almost 45 years in prison. A prison is a great place for him.

**10. SEX. Traffickers have no respect for human life. They treat their sex slave like PROPERTY. Often, they are branded with tattoos. They are sold to Sexual Deviants and other Pimps.**

Tatts, scarring, and burns are methods to identify a Sex trafficker's sex slave or (property).

Yarbrough "branded" all of his sex slaves by tattooing his nickname T-Rex on their arms. One girl said that she was sold, at age 14, from one man called "Love" to another PIMP called "Junior" for \$600.

### **11. Child SEX. Traffickers are using the Internet to sell sex.**

Backpage was a tabloid. 97% of the classified ads were ads soliciting child sex for pedophiles. To others, prostitution was also a big profit maker for sex traffickers. Backpage was eventually shut down.

### **Most SEX. Traffickers were likely abused and mistreated in their childhoods.**

**12.** The Pimps hold this law over the heads of their sex slaves. Under most current state laws, children who are forced into prostitution are subject to criminal prosecution. Pimps will threaten their sex slaves with this law. Pimps will make the child sex slaves believe that they can be prosecuted for selling sex. The Federal law states that anyone under 18 caught in the commercial sex trade is considered a trafficking victim. State and local laws will vary from state to state.

*Most states will make child sex for money a criminal activity, meaning that a person under 18 attempting to solicit sex on FOR the pimp may be formally arrested for child prostitution - even though the child is under the legal age. Children may be detained or even arrested by law enforcement for merely trying to escape an abusive living arrangement.* Please research or consult with a professional for legal advice in your area. Police may charge a minor (child) with a status offense for various reasons instead of taking action against the pimp or seeking the REASON the child became a sex worker.

This helps create a continuous cycle of sex abuse. There are more animal shelters (5,000) than there are beds for sexually abused children living on the streets.

### **13. The "johns," or customers, usually walk away without any type of punishment.**

**Most BUYERS who commit child rape are not accountable for their crimes.**

### **14. New legislation May Stop all of these Crimes against Child Sex.**

The Polaris Project defines Safe Harbor laws that were passed in 12 states. It will protect minors (young teenage girls and boys) from prostitution charges *and* offer rehabilitation services.

*\*\*\*\*\*A Federal Bill will require parents and those taking care of children to report missing children within 24 hours of the disappearance. And here is a federal bill, the Justice for Victims of Trafficking Act. The mission is to decrease the demand for child sex trafficking by encouraging the FBI. and the police to prosecute the BUYERS of child sex.\*\*\*\*\**

### **Interview with a Sex Trafficking Victim**

Experts who study and research the child sex slave trade say this story stretches across the globe. President Donald Trump is dedicated to hunting down human traffickers and those involved in sex slavery.

The victim, "Chris," said that she was sold to her "sex slave owner" by her parents when she was first BORN. She was born into the disgusting world of sex slavery. It was the only life she knew. She has memories of adult men rubbing her genitals. Later, she thought it was normal. She was even forced by her "sex slave owner" to kill a baby and to rape several children as young as five years old. Chris's entire existence revolved around the demands of her "sex slave owner" and the BUYERS of sex with children.

***She said her entire life was to travel all over the world to have sex with Adults.***

***She said she would attend the most significant events to meet adult men and women for sex.*** All the sex buyers were very wealthy and influential people within communities and societies. Sometimes the SEX BUYERS wanted me for sex, and sometimes they wanted me to have sex with others—different people.

Those who raped me were many types of law enforcement. Some were high members of the FBI. – low and high levels. Professional athletes and American politicians. Many times, they were rushed to massive luxury mansions. The sex buyers would rape, torture and abuse other children held as sex slaves and me.

Most of the people were all highly recognizable as famous people on TV and in local communities. Some of the events happened on private islands so that the children could be hunted down and raped without punishment for the actions whatsoever.

Yes, she met one man named Jeffery Epstein. A repulsive man with a weird penis. Epstein owned a private island. Epstein also owned a jet called the "Lolita Express."

Epstein would invite politicians and businessmen to his so-called "Orgy Island" or "Sex Slave Island."

Epstein trafficked girls, and many were under 12 years old. Nearly all the children were forced to have SEX. Epstein and his FRIENDS were billionaires, politicians, royalty, and others. Ex-President Clinton was on the Jet and at pedo-island. The flight logs Clinton at 26 times onboard the "Lolita Express."

Very wealthy and powerful "sex buyers" were responsible for disgusting crimes. Often, the sex buyers were physically abusive - she was often drugged by her captors as well. The clients were even allowed to smother her with a pillow or plastic bag while having sex with her. They never leave marks and can not bruise my face because my sex owner always wanted me to look pretty and desirable.

She became used to the treatment - she had been a sex slave since she was a baby. Many girls WERE NOT born into sex slavery. They had a much more difficult time. They were often tied down, lived in cages, and they were sad and scared.

Sex slave owners can be incredibly mean and cruel. She had been made to eat dog poop, and sometimes, as a child, she was kept in a cage like a dog.

Sometimes I was shocked with electricity as punishment. I had to obey or be punished.

She witnessed the murder of 20 to 25 people. If I told anybody about what she saw – they said nobody would believe me. The slave owner said the only way she could leave was to kill herself.

**Jimmy Savile, a celebrity in England, was exposed as a pedophile MONSTER. He sexually abused hundreds of children over the decades. He was also enjoyed sex with dead bodies.**

Savile is dead now.

However, he was good close friends with the royals in Britain. The police appear to have known Saville's sadistic habits over the years; however, they declined to do anything about it.

The authorities could have saved hundreds of children from the effects of child sex abuse. Instead, they chose to do NOTHING. Jimmy Saville will be discussed further in this eBook.

It is suggested that there is an unmistakable force of corruption at work. The police protected several members of the pedophile ring and many influential pedophiles.

UN "peace" troops are raping and trafficking children worldwide.

### **Is CPS – Child Protective Services Trafficking Children?**

#### **Is it possible CPS set up a system to steal and SEX. traffic Children?**

Many people DO NOT want to hear the ugly truth about sex trafficking – most Americans are simply unaware of how child sex trafficking works or how popular it is among thousands of sadistic PEDOPHILES.

Thousands of young Americans are victims of sex trafficking. Where are they abused? In our nation's FOSTER CARE system. That's right. It's a deeply "EVIL" system that leaves thousands of children vulnerable to (CPS) pimps grooming them for the illegal sex trade. The real facts are; our nation's foster care system is a criminal organization for buyers of children.

Some of the FBI's good guys are finding hundreds of children being trafficked into the foster care system. Yes, many foster homes get paid to be guardians of children – however, many are PEDOPHILES!

Beware of CPS when they attempt to steal your children because of the Covid virus. If one or both parents test positive for Covid, then CPS will most likely remove the children from the home. It will not benefit you or any family member to test for the Covid virus. You should stay out of the health system. You must fight this law. Save the Children.

Amber alert is not what you think. It's actually an alert saying that CPS has stolen another child.

Connecticut, the "good" police rescued nearly 100 CHILDREN from sex trafficking; almost all were from the child welfare system. The FBI discovered that many foster children found in the hands of sex traffickers, including children as young as eleven, were never reported missing by child welfare authorities.

They are sexually abused inside adoptive homes, or in one instance, reportedly raped inside a child welfare office.

**All 50 states have similar issues with missing children.**

### **Georgia Senator Nancy Schaefer**

Georgia Senator Nancy Schaefer, who was murdered, wrote extensively on the **CPS abuse and corruption** and fought hard. Simultaneously, she was alive to bring awareness to sex trafficking happening through corrupt government institutions. **Nancy was, unfortunately, murdered.**

*Senator Nancy Schaefer was a significant voice against CPS and discovered many cases of abuse until she was murdered.*

The CORRUPT news coverage of her death never even mentioned her life's work. The Senator outlined the corruption of the child welfare organization, which in many instances, forcibly remove children from some so-called-imperfect and often poor but loving homes in exchange for federal dollars.

Nancy Schaefer was the author of an extensive report to the Georgia Assembly that detailed the abuses she uncovered:

This report, Child Protective Services nationwide, is a CORRUPT and ruthless system, and it is broken and nearly impossible to be repaired. All parents and families should be warned about the dangers of child sex trafficking.

CPS, known as the Service (DFCS) in Georgia and other titles, has become a "*protected empire*" built on taking children and separating families. This report is concerned with "legal kidnapping" and DFCS, who does not remove children when a child is an enduring torment and abuse.

Some of the worst information she revealed included that **CPS is a for-profit business** that depends on removing **children for MONEY**.

The Adoption and the Safe Families Act by President Bill Clinton. He offered **cash "bonuses"** to the states for every child they adopted out of foster care. **ALWAYS NEEDS MORE CHILDREN**. CPS is a corrupt organization.

Buyers of children like a wide choice of children. So, CPS makes sure to have a good variety of children. Some counties may provide a **\$4,000 bonus** for each child adopted and an **EXTRA \$2,000 for a "special needs" child**. Employees of CPS work to keep the cash flowing. The lower level minions of CPS may not know about the TRUE nature of CPS and its mission. Some actually "think" they are protecting children, when they are even feeding a very evil and corrupt system.

- The CORRUPT funding continues as long as the child is GONE from the original house. When a child is inserted into foster care, a new pedophile person(s) the "adoption bonus funds" are provided. Naturally, it is not uncommon for children to be emotionally distraught by being legally kidnapped and placed in the hands of pedophiles; they often require medication to keep them sane.

- Here is the sickness to it all. There is no financial resources and no real desire to unite a family and help keep them together at this time. The reason is unknown for now.

**CPS is a traditional and great method for child sex abusers to find a massive groups of innocent children to prey on?** Almost all foster children are now considered at "high risk" for abuse. *Meanwhile, the real and loving biological parents are prevented by illegal court orders from talking to the press about having their children - who are unfairly removed from them and put into a system set up to abuse them sexually. Can you believe this?*

Many corrupt judges are also "Pedophiles." Thousands of parents report to *Medical Kidnap*. This illegal gag orders imposed upon them by judges who claim to want "privacy for the child." This is the highly sneaky way the STATE will silence the whistleblowing parents. They are being railroaded by a CORRUPT system set up to separate families and provide a pool of innocent children for monster pedophiles.

**Thousands of dangerous pedophiles have admitted to searching foster care sites to find children to sexually abuse.**

This is an online website named Adopt Us Kids, where children's photographs are posted from every state with personal information about the children. This ad from the Adoption Profile Exchange is dangerously disgusting — it appears to be like a commercial ad for *a child searching for her next abuser*.

**EXAMPLE – REAL AD:** Please meet Janice. A beautiful and intelligent young girl. She loves to keep everyone entertained! Janice is a real **people pleaser** and loves to hear the words "well done." Janice will do her very best as the youngest child in a family. Janice needs loving care as she had the **effects of trauma**.

The parents are often forced to watch as their child(s) are adopted out to others through websites. Most of these children's lives will never be the same again.

**Make a note of this too.** Most of these INNOCENT parents have NOT been charged with a crime, NEVER spent one day in criminal court, and THESE parents had their rights DELETED by a PEDOPHILE LOVING judge. Not only that, but **grandparents** are regularly denied custody in favor of strangers. It has been determined that many judges ALSO receive cash kickbacks from the state for deleting the rights of parents.

**Why is this allowed?** Why and HOW can children be removed from parents without warrants? Trials or by a jury in criminal court? Can this happen in America?

You bet it can! - *"family court corruption."* *You will receive plenty of results concerning the disgusting and tragic stories of parents denied due process. Where are the screams of outcry?*

**There are plenty of reports concerning foster care abuse.** A Texas CPS caseworker was arrested for soliciting sex with a minor. How about this one – A pedophile ring found in Arizona foster care that SEXUALLY abused hundreds of foster children. The children were being sold to other pedophiles. She was selling them for sex over and over for decades!

These types of stories are REAL and are occurring all over the country. Where are the congressional VOICES for these children and families like the ones in **Nancy Schaefer's** report? Perhaps they're nervous they'll wind up just like her if they expose this billion-dollar industry. Why isn't CPS being investigated? So far, NOTHING!

**The closing remarks are; I have witnessed injustice and harm brought to many families. The CPS- foster care system cannot be trusted. It does not serve the people. It obliterates families and children because it merely has the power. Children deserve better. Families deserve better.**

## Part Nine

### Child Sex Rings

**The term CHILD SEX RING is often defined as one or more sex offenders who simultaneously are involved sexually with several child victims. In other words, children are being raped and passed around.**

Children do not need to be purchased. The mere fact, the child or children have been sexually abused by others.

It does not mean group sex.

Several men rape many young girls at one time, and in some cases, however, the child is mostly raped by one man at a time. In a child sex ring, the offender often has sex with other children before walking away from the children of a particular child trafficking ring.

The various child sex slave knows other children are being sexually abused during a specific period. They may even know each other.

Some children might believe that "THEY" are the only ones having a "special" relationship with the SEX offender or child rapist. Other victims may observe other sexual activities of the serial child rapist with other children. Some SEX criminals may treat some victims differently than others.

Many of the **experts** have little or no experience dealing with child sex rings. All or most of their experience is with one-on-one interfamilial incest cases. This has been the past – however, they are quickly learning about the hundreds of pedophile sex rings in America alone.

It is a worldwide pedophile industry.

**Multiple Sexual Child Abusers.** Sexual offenders or abusers like to communicate with each other and trade information, experiences, and photos with each Offender interaction is essential in investigating these cases.

Discovering multiple abusers' existence can be challenging to investigate, but it can be a great benefit. The more the abusers are involved, the greater the odds that they will make a MISTAKE, and their error can be used to provide the necessary and alleged abuse.

**Gender of the Victim.** This can be a big difference between interfamilial and sex ring cases. Unlike interfamilial sexual abuse - the most commonly reported sexual abuse case is a young female; in child sex rings, the victims are usually **adolescent boys**.

**Types of Child Sex Rings.** Evaluating and analyzing child sex ring cases is important. There are several types of rings. "traditional" or "ritualistic" or "satanic" child sexual abuse and children sold for sex.

**A syndicated ring:** A commercial and well-organized group of individuals will recruit children, produces pornography, delivers direct sexual services, and establishes a massive list of customers of SEX BUYERS.

**A child sex ring can involve a daycare center,** a school, a scout troop, a Little League team, or neighborhood children. It may also involve marriage as a means to access children.

**Male Sex Abusers or Offenders.** Ninety-five percent or more of the child sexual abusers' offenders are MEN. When a female sexual abuser is involved, she will usually have one or more male sexual criminals who will accompany her.

**Preferential Molesters.** Most of the SEXUAL ABUSERS of children are offenders who are pedophiles. Their sexual preference is children. Some homosexual pedophile men are sexually attracted to young adolescent boys. These types of men are usually the most persistent and consistent child abusers.

**Child Sex Abusers** will easily create hundreds of child victims in a lifetime. They usually begin their sexually criminal behavior when they were teenagers and will continue their sexual abuse on children as long as they can. Pedophiles are generally very "nice" men and women. After all, this is their lure to attract children.

Pedophiles almost always create a method to have easy access to children (marriage, neighborhood, occupation).

**It should be clear that every person who is in the care of your child be vetted. Just because a child sex abuser is a doctor, priest, minister, or therapist, for example, does not mean that he/she is safe and NOT also a pedophile sexual abuser. A predator may have a long history of sexual abuse and be part of a long-term persistent lifestyle.**

A pedophile, during their life, will leave behind a list of child victims. The children must endure the emotional pain all their lives. Usually, one way to convict a pedophile is the evidence he owns—usually children pornography.

Naturally, it is best to get a preferential child sex abuser's conviction based on past actions. If, however, all else fails, a sexual predator can be convicted in the future based on children's abuses.

Most child sex abusers spend their entire lives attempting to convince themselves and others that they are NOT perverts. Pedophiles will often proclaim their innocence up until the day they are convicted. Their argument is this is what I get for 'loving children?'

The main thing of preferential child sex abusers is multiple child victims, continued access to children, and child pornography collection. 66% or more of the victims are young males. Most of these males are boys between the ages of 10 and 16.

**Sexual Motivation.** A child sex abuser frequently claims that sex is only a small part of their "love" for children; the **fact** is that when the sexual attraction is gone, the relationship is over. Their primary reason for a pedophile to communicate or interact with a child is for SEX.

**Child Pornography and Child Erotica.** Most child sex abusers almost always own an extensive collection of child pornography and or child erotica. Child pornography is often defined as the sexually explicit visual pics of a child, including sexually explicit pictures, magazines, movies, or videotapes. Child erotica (pedophile paraphernalia) is usually defined as any material relating to children, which serves a sexual purpose.

**Control of the child is the most crucial ingredient of the child sex abuse RING.** Creating a network of pedophiles and multiple sex partners for a stable of young children is extremely important. Then the pimp must make sure there is no evidence of the illegal actions.

A PIMP or child sex slave owner must be experienced in the manipulation of children. What motivates children to do actions beyond their own needs or interest? As stated above, control is primarily maintained through attention, affection, and gifts are all parts of the grooming process.

Pedophile child sex abusers seduce children the same way that adults attract one another. The big difference is between the adult authority of the child abuser and the child victim's vulnerability.

## **Part Ten**

### **Here are Few Signs of Child SEX. Trafficking in Neighborhoods.**

It is extremely difficult to recognize a house set up for child sex. Nearly all of these child sex "houses" go undetected. People in neighborhoods seldom get to know their neighbors and rarely pay attention to what is happening right under their noses. American humans are trafficked in and out of rented or owned homes for labor and SEX. every day. Much of this ILLEGAL activity goes undetected in friendly neighborhoods. These are all criminals who appear to be living average lives.

Human trafficking isn't ONLY an issue in 3rd world countries. There literally thousands of SEX brothels (sex for sale) right in the best neighborhoods in the United States. They are incredibly prevalent. The house is maintained with a nice clean appearance – the outside of the house is also maintained, and the yard is well manicured. They make sure no attention is brought to the place. Most of the sexual activity might be inside the house. Buyers of sex arrive throughout the day or all through the night. Neighbors seldom notice because most of the neighbors are at work during the day, and most neighbors are asleep at night.

Most people who BUY sex often look like you, or they look like your neighbors.

### **Signs of human trafficking**

Below are a few red flags; the house might be a house for human traffickers.

- Unusually high numbers of people coming in and out
- Interior locks on doors or windows.
- You're usually not invited inside or NOT permitted inside the house.
- Visitors to the house who lack knowledge of the neighborhood
- Look for those who seldom leave the house. Human trafficking victims rarely leave home.
- Children at home, but do not appear to be homeschooled.
- The house owner or person leasing the house will usually NEVER look at you in the eyes. Eye contact or seems overly anxious.
- Look for expensive gifts.
- Look for lies or storytelling.
- Someone who appears to be a family member but is dressed very differently or has a significantly lower level of hygiene than the rest of the household.

### **What to do if you suspect human trafficking**

You should report human trafficking anytime you suspect it. You can do it all anonymously to the National Human Trafficking Resource Center Hotline at 1-888-373-7888. This may bring it to the attention of the FBI. The field office in the appropriate jurisdiction and police who are trained at identifying human trafficking.

## **Part Eleven**

**Children Are bought and sold for SEX. These are the Hidden Victims of the Open Border Situation. We must close the borders soon.**

United States-Mexico border helped define the true victims. Children are being bought and sold to Americans for SEX. Hidden is a much uglier issue. Children are smuggled across our SOUTHERN BORDER ARE BOUGHT AND SOLD FOR SEX.

There are **34,000 to 60,000** and more sex-trafficking cases (these are only reported cases). About 1,000 or MORE of the cases annually involved foreign nationals smuggling men, women, and children across our southern border.

**Central American and Mexican Drug cartels control the multi-billion-dollar sex trade crossing the southern U.S.-Mexico border.**

The groups were smuggling young girls from Mexico and Central America and forced them into the sex trade.

As young as 11 years old, women and girls were coerced or abducted and then smuggled through the US-Mexico border to SELL sex acts to willing buyers. Some child sex victims are forced into sex as many as 45 to 60 times every day. These women and girls DO NOT enter into the sex trade as volunteers; they are often sold or kidnapped and tossed into the sex trade. They are often beaten into submission, sexual assaults, and physical threats are usually made concerning their family members IF they do not do as told.

**We should ALL take part in protecting the innocent young men, women, and children crossing our southern border. These young children's bodies are being bought and sold and are part of the modern-day sex slave trade.**

Pimps and child sex buyers have turned young boys and children into victims. They are forcibly transferred into the United States across our southern border and organized – they are bought and sold for SEX. and forced labor. President Trump has signed anti-trafficking legislation focused on the child sex trade.

- The Abolish Human Trafficking Act provides many resources for human trafficking victims and human sex
- The Frederick Douglass Trafficking Victims Prevention and Protection Reauthorization Act authorized \$430 million to fight sex and labor trafficking.
- The Stop Enabling, Sex Traffickers Act
- The Trafficking Victims Protection Act - regulations on countries that fail to help end human trafficking. However, one piece of legislation with no enforcement trigger is insufficient.

Thankfully, the Trump administration has increased resources necessary for law enforcement to fight HUMAN traffickers. Still, more is needed to combat trafficking and the cartels who are pouring into our nation. The traffickers are giving pedophiles an unlimited supply of children to prey on.

Naturally, children who come from Mexico alone without an adult are especially vulnerable to human trafficking.

Once they are manipulated or coerced by drug cartels and local gangs to serve as their drug mules, then these same children are organized - bought and sold for SEX. in the United States.

Many migrant children coming across the US border from other countries, who appear at our southern border, are vetted. They are immediately inserted with the Office of Refugee Resettlement to either enter **foster care** or be reunited with family members who legally live within America.

When the US creates an adequate system for seeking out and vetting immigrants, then the U.S.-Mexico border wall is the only way to put a dent in the sex-trafficking industry. Many of these young children, especially those from Mexico, are returned to their country on the same day if there is no trafficking connected to them.

Busting the traffickers at the U.S.-Mexico border is the only way to combat the international cartels who are smuggling child sex workers across our border.

**Innocent children crossing our southern border are bought and sold into the modern-day SEX trade.**

**What should we do about it?**

**Jimmy Savile got away with abusing  
at least 500 children and sex with their dead bodies.**

Jimmy Savile was an ugly unkempt man. The hook nose, the jagged-tooth grin, the big bugged-eye balls are many of his gross characteristics. He had platinum hair. A fat cigar nearly always in his mouth. He seemed to talk exclusively in catchphrases.

**The kids liked his jokes. Savile was very popular.**

Savile was great friends with the royal family. He spent holidays with the Thatcher's and was knighted by Queen Elizabeth and Pope John Paul II. His weirdness is apparent now. Why couldn't people see it then?

He brought in or funded \$5.2 million for a hospital in Leeds, one of the most extensive.

Rumors and Whispers began that he was a sexual predator and had abused hundreds of children. But hardly anyone believed the stories. On October 29, 2011, Savile died at his home in Leeds.

**The rumors were true.**

Savile was a very dangerous and prolific pedophile. The health service investigation confirmed his actions. He never stopped, and his actions injured hundreds of innocent children.

Savile sexually abused at least **500 girls and boys**. Many children were very young. Some children that Savile abused were as young as two years old. However, Savile's favorite ages for sexually abusing children between 13 to 15. However, he would sexually abuse most age people - even older adults up to about 75 years old. Savile had total access to Leeds General Infirmary. Savile raped and sexually abused boys, girls, men, and women anywhere he could. He also had sex with dead bodies, and even told **several hospital workers** that he created homemade jewelry from a gentleman's glass eyeball.

Savile got away with all his disgusting episodes for decades without any ramifications. No punishment whatsoever. Many people believe Savile went unscathed because he was best friends with the Royals, Prince Charles, and the Queen.

## **How is this possible? How did Savile Continue his Horrific Sexual Actions for Decades?**

Some say that he was permitted to perpetuate his sexual deviance because he was Jimmy Savile and was raising millions of dollars for children charities. He had celebrity status.

One woman remembered Savile had sexually assaulted her when she was 16. Even several decades later, she told investigators she remembered it like it was yesterday. After he was finished his sex act, he threatened her not to talk about it. Savile said, "nobody would believe you." The girl told her mother, but her mom didn't believe her. The girl never spoke about the incident again.

Experts have examined Savile's actions since his death. They say it he had mania, dissociation with his victims, and split personalities. Some call it the "dark triad of personality characteristics." Psychologists said that Savile was a psychopath. Machiavellianism and narcissism. Such people often slide easily between personas. Savile had a grandiose of self.

### **The Pedophile COVER-UP**

Thousands of children are stolen from neighborhoods, homes, low-income families, poor countries, even hospitals. Some children are even sold. Child sex trafficking is more prevalent today than ever before.

Experts say that an adult pedophile will sexually abuse 150 to 300 children before or if he/she is caught.

Often, children are placed in foster care situations by CPS. It has been alleged that CPS higher management is in the child selling business and has allegedly stolen and removed children and planted the children in fake "foster" care homes. Many of these foster care people are pedophiles. CPS alone, from their data, say that they remove about 250,000 or more children per year – the number of children who return home is not known.

### **These Sex Crime Facts are Overwhelming:**

- 42 million people have survived sexual abuse in America.
- 1 in 3 girls are sexually abused before the age of 18.
- One in five young boys are sexually abused before 18.
- 1 in 5 children are solicited sexually on the Internet before 18.
- 30% of sexual abuse actions are never reported to CPS.
- Nearly 70% of sexual assaults occur to children under age 17.
- 90% to 95% of child sexual abuse victims know the predator.
- About 20% of the victims of sexual abuse are under age eight.
- 95% of sexual abuse can be prevented through education.
- Females make up 38% of the sexual abuse done to boys .
- Among child and early teen victims of sexual abuse, there is a 42 percent increased chance of suicidal thoughts during adolescence.
- 90% of mentally impaired individuals or have a disability will be sexually assaulted at least once in their lifetime.
- Over 500,000 registered sex offenders, including child rapists and other child sex crimes in the US, cannot be found.
- The average pedophile will commit 117 to 300 sexual crimes in a lifetime.

### **FACTS AND SOURCES**

- Pedophilia—An adult who is sexually attracted to children.
- FBI. - child pornography is one of the fastest-growing crimes in the US. In the past decade, child pornography arrests have increased by *2500 percent*.
- About Two-thirds of sex offenders in state prisons committed offenses against children.
- There are more than 747,000 registered sex offenders in the United States today. As many as 100,000 are noncompliant and missing.
- The U.S. Justice Department estimates that close to 300,000 American youth are currently becoming commercial sexual exploitation victims.
- Data suggests at least ONE HUNDRED THOUSAND American children a year are victimized through child sexual ABUSE. This number is much more than those children who die in car accidents. Or illegal drugs combined!

According to crime reports, "the prevalence of child sexual abuse is usually not reported." On average, 69 out of 100 child sex abuse actions go unreported. Out of every 100 sexual assaults, only 31 are reported to law enforcement.

- During one year in the US, 16 percent of youth ages 14 to 17 had been sexually victimized.
- Throughout their lifetime, 28 percent of US youth ages 14 to 17 ARE sexually victimized.
- One in TWENTY-FIVE children between the ages of TEN and SEVENTEEN has received an online sexual solicitation from someone who tried to contact them offline.

**Warning:** Pedophiles are now targeting underage children from 12 to about 15 by using their INFO from twitter, social Facebook, and other social media accounts. Pedophiles discover the child's likes and dislikes, where they live, where they go to school, and their current location. Pedophiles have raped thousands of underage victims just by luring them from social media profiles.

Mental health experts say that when a man becomes addicted to child pornography, he will almost always progress to children much younger and try to find more sadistic, masochistic images and sex with animals.

A pedophile will usually abuse children until he can be arrested, in prison, or dead. Statistics show pedophiles will have a lifetime of victims – hundreds of children.

### **Who They Victimize**

Pedophiles often have their favorites. They will seek out particular characteristics and appearance in their potential child abuse victims.

Pedophiles often see children from where there is a divorce. A woman who is working and raising a child on her own is a target. Why? Because the children are more prone to being lonely, alone and lack the feeling of being loved.

A strong family unit is essential when raising a child. A mother and father who showers the child with attention and love is the foundation that provides a safety net for the child. A married mother and father are a protective shield for the child.

Without this healthy ingredient, the child may have many psychological and emotional issues. The pedophiles will use these issues to his/her advantage.

Children living without parents are TEN TIMES more likely to be sexually abused than children who grow up with a healthy married mother and father who love them. Children who live with a single parent with a **live-in partner** are at the highest risk: The child is twenty times more likely to be victims of child sexual abuse than children living with both biological parents.

According to the 2014 Pew Research statistics, more than half of American children today (54 percent) live in NON-traditional families —*broken* families. Thirty-four percent live with a single parent.

**Pedophilia is INCREASING, and fathers are NOT at home to STOP it. Many fathers are not protecting their children.**

Over a million children each year are more or less thrown to the wolves. More and more children are becoming available for prey for PEDOPHILES. The supply for children is increasing, and thousands of pedophiles are in hog-heaven.

**Ninety percent of both child males and females** with mental or physical disabilities will be sexually harmed at some point in their lives, and **49 percent** will experience **ten or more abuse incidents**.

**Children Raised in Satanic Families**

Satanism is on the rise in America. The moral decay of America is declining. Satanism is about living for self – do what pleases you. Satan represents indulgence instead of abstinence.

**Control Over Others – Power Over Others. Sex abuse is prevalent among MILLIONS of children.** "Save the Children" organization is finally organized to bring awareness to more people. Some children are sexually abused for long periods. Many child sex slaves are passed around like a sexual "football" from one pedophile to another. Children who are stolen and trapped inside the sex trafficking life (on average) will be raped 20 to 30 times per day.

To these traffickers, a child is worth thousands of dollars in revenue. The child sex trafficking business is much more lucrative than selling drugs. Each child can be sold many times per day. Child sex trafficking can happen anywhere and in any neighborhood. (Usually right under your nose.) A multi-billion-dollar business!

Experts say about 20% of sexually abused children become pedophiles when they reach adulthood due to their damaged minds - the other 80% of the victims almost always have severe psychological and mental issues. Many child sex slaves will die of a drug overdose and suicide later in life.

**As an example:** Let's say one million children are sexually abused each year. That would be about (20%) 200,000 additional pedophiles created each year. Pedophiles have an insatiable sexual appetite for children. The average pedophile will abuse 150 to 300 children during his/her lifetime.

Many pedophiles are also psychopaths, which means they do not have empathy for others. Many psychopathic pedophiles will seek out a career that involves money, sex, and **power over others**.

Psychopaths are thieves. They lie or steal the "truth," cheat, pocket money and possessions from others, and murder them if necessary. They are seldom loyal to another human being. They can be intelligent and likable.

**The below are popular professions that psychopathic pedophiles will seek.**

**Naturally, pedophiles will protect each other.** So, when you have a country or a world where there are thousands upon thousands of "**Psychopathic Pedophiles**" in powerful positions, what do you expect will happen?

Many powerful, influential people are kept on a leash by "handlers." These handlers usually have blackmail pics and videos of these "power-hungry people" having sex with children. If a particular pedophile is sitting in a seat of power, you better believe there are "blackmail" pics of him or her having sex with children sitting in a "vault."

Naturally, these revealing pictures are evidence, and it could place the pedophile in prison. It is common knowledge that prisoners despise pedophiles. It is usually a death sentence if a pedophile goes to prison. (All pedophiles know this fact) So, blackmail items have been a successful method to get favors when needed and push specific political agendas – locally or nationally. (Naturally, not every powerful position is held by a pedophile, but beware of those.)

## **Part Twelve**

### **The Cover-Up?**

There are **thousands of children** being sexually exploited and murdered, not only in America but also worldwide. Unfortunately, the "good" authorities who want to place an end to these disgusting and tragic crimes have a difficult time when rich, powerful, and influential pedophiles cover it up and create roadblocks. It is a sad situation.

Hopefully, if enough of the public becomes aware of these satanic pedophile criminals, maybe we can save MORE children's lives. The current administration has been recovering many hiding places of 'live' children, and thousands of pedophiles found inside cages where they belong. The media seldom broadcasts these successes.

Many catholic priests are guilty of child sex abuse or pedophilia. The organization even has a cover-up method they use to protect guilty priests who engage in pedophilia.

Church authorities followed a "**playbook for hiding the truth**," the reports states. The patterns were comparable enough that FBI analyzes of the church's reactions yielded 7

guidelines, essentially, an institutional guide to concealing abuse. Here are 7 cover-up methods.

- Make sure to use euphemisms rather than real words to describe the sexual assaults in diocese documents. Never say "rape"; say "inappropriate contact" or "boundary issues."
- Don't conduct genuine investigations with properly trained personnel. Instead, assign fellow clergy members to ask inadequate questions and then make credibility determinations about the colleagues with whom they live and work.
- For an appearance of integrity, send priests for "evaluation" at church-run psychiatric treatment centers. Allow these experts to "diagnose" whether the priest was a pedophile, based largely on the priest's "self-reports" and regardless of whether the priest had actually engaged in sexual contact with a child.
- When a priest does have to be removed, don't say why. Tell his parishioners that he is on "sick leave," or suffering from "nervous exhaustion." Or say nothing at all.
- Even if a priest is raping children, keep providing him housing and living expenses, although he may be using these resources to facilitate more sexual assaults.
- If a predator's conduct becomes known to the community, don't remove him from the priesthood to ensure that no more children will be victimized. Instead, transfer him to a new location where no one will know he is a child abuser.
- Finally, and above all, don't tell the police. Child sexual abuse, even short of actual penetration, is and has for all relevant times been a crime. But don't treat it that way; handle it like a personnel matter, "in house."

It's a big "dirty" club, and if you're not a psychopathic pedophile-you're not in the club. These are a few of the professions psychopathic pedophiles seek out.

### **Rape by US Police Officers For 9 Years Are Incredibly High**

**United States police officers were charged with rape 405 times in the period from 2005 to 2014.** That's an average of 45 rapes per year! There are thousands of "good" Police Officers in America, but there are several bad apples.

**Don't forget . . . Politicians, Priests, Police, Teachers and others in influential and powerful positions govern over the people. They have the power and the influence to MAKE LAWS and to control the public in many instances. Many of these people believe they are above the law. Watch them carefully.**

## **Part Thirteen**

### **What is Adrenochrome? The Killing of Children?**

**Adrenochrome is a chemical that is created by the adrenal glands. When a human is forced into a "flight or fight" situation, then FEAR is usually created. Fear will cause hormones called adrenalin to appear in the blood.**

Adrenochrome must be "harvested" for consumption. Adrenochrome becomes a drug. Usually, a young human being will be killed to reap the benefits of Adrenochrome. This drug is a favorite among certain wealthy "elites," celebrities, and others. People who drink Adrenochrome say it is the "fountain of youth," and they experience a "high."

### **Child and Infant Sex Abuse**

Often times, a child will get black eyes from being severely sodomized. Their small annus (rectum) and colon is usually damaged. Black eyes could be a tell-tale sign of severe child sex abuse.

### **Origins of Adrenochrome**

Experts believe that Adrenochrome is usually connected to Satanism. Most Satanic cults are incredibly secretive, as many of their Satanic ritual ceremonies are illegal and immoral.

Sacrificing humans is not unique and has been going on for thousands of years. Mayans, Egyptians, and Aztecs murdered thousands of humans. Often, children will be murdered to remove the Adrenochrome from their bodies. Drinking Adrenochrome is not new.

By drinking a child's Adrenochrome, the "elite" believe the little person's life energy can be removed and consumed.

Thousands of children are kidnapped under nine years old. They are usually kept captive in wire cages. Spiders, snakes, and other scary creatures are dropped into the cage with the child. Children are also forced to sleep with urine and their feces. Many children are tortured with electricity to create as much fear and suffering as possible. Adrenochrome extraction from the pineal glands is done as well.

Once the child is murdered, the blood from their bodies is harvested into drinking containers. The effects are said to feel like a combination of LSD and drugs that "speed" you up. Sometimes the child is kept barely alive to extract blood from them several times. Many times, they will use a procedure where the eyeball is punctured with a needle, and adrenaline is drained from the brain stem.

Drinking Adrenochrome may cause **mental disorders**.

**Nearly 1 million children are missing every year in America alone, and thousands are utilized for Adrenochrome. Experts and those who infiltrate Satanic rituals say that Adrenochrome is highly addictive, and more and more children are required to satisfy the never-ending desire.**
